DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Wipo document (WO/9830350).

Wipo document '350 discloses an apparatus for pulling a work load comprising a cable (70) for connection to the work load comprising at least one cable-pulling member (120) and a cable gripping element (see page 4 line 22). The cable pulling member comprises a pair of cable pulling members (see Fig. 9) and a pair of cable gripping elements (560).

3. Claims 12-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Kennedy et al. (US 4604938) or Biass (US 4615509).

Kennedy et al. and Biass both disclose claims 12-22, see Figs. 5A-5D and 1-12 respectively.

Double Patenting

Art Unit: 3673

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 12-22 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 6357967. Although the conflicting claims are not identical, they are not patentably distinct from each other because they both call for a pair of cable pulling members and a pair of gripping elements for alternately gripping, pulling and releasing a cable.

6. Claims 1-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-24 of U.S. Patent No. 6129486. Although the

Art Unit: 3673

conflicting claims are not identical, they are not patentably distinct from each other because they both call for an adaptor, wedge disposed in said adaptor, biasing means and cable pulling mechanism for pulling and releasing a cable.
